Architectures

*Creating a
comfortable for
all*

\$175,000

Roslyn Heights

- Added stone columns
- Added brand new windows
- Changed the color of the house
- Cleared out the front lawn and added new trees and bushes
- Changed the banisters of the stairs to match the outside of the house
- Recreated the living room to match the outside color of the house

This is one of the residential houses we created. The family was very excited with the outcome of their new home. They were appreciated of our work and recommended us to people they know, who were also satisfied with our work.
