

All About Alpha Phi

Alpha Phi Sorority was founded in October of 1872, at Syracuse University. Now this international sorority can be found at over 160 college campuses and consist of over 200,000 members .

Sisters of Alpha Phi strive for good scholarship, moral character, and genuine culture. The colors

Go Greek

Getting involved on campus is one of the best ways to build up a resume and make friendships. SUNY Cortland has an outstanding selection of social Fraternities and Sororities.

There are three social Fraternities and five social Sororities. Each organization holds different ideals and philanthropies. If interested in going Greek, it is highly recommended to visit each chapter to find your own best fit.

It is mandatory that if one is looking into Greek life that he or she has completed at least 12 credits at SUNY Cortland and has maintained at 2.0 grade point average or higher. Transfer students must have a minimum of 24 credit hours prior to attending SUNY Cortland.

Recruitment

Every Fall and Spring semester SUNY Cortland females are able to rush the sorority. The sisters have designated events at the beginning of each semester where females who are interested can come learn about the chapter and meet the members. If select-

ed to join, new members go through a four to six week program where

they learn all about the members and the sororities values. Once initiated, females are a member for life and can count on Alpha Phi to be there in times of need.

Why Cardiac Care?

Heart disease is the leading cause of death among women in the United States. One in every three women die each year from this disease. The sisters of Alpha Phi take pride in their philanthropy. They run community service events to help raise awareness of this disease and raise money to help find a cure. Their infamous community service events are a teeter-totter-athon in the fall and a Red Dress Gala in the spring.
